- ✚ **The locale of *sajdah*** should be either **owned**, or lawfully **permitted**; and it must be **pure** from (wet and dry) *najasah*.
- ✚ If the *najasah* is in a restricted or an enclosed place, such as the house, and the person does not know the exact *najis* place, he must not prostrate on any place.

Seventh: Adhan and Iqamah

I. Cases Requiring Adhan & Iqamah

Adhan & Iqamah are **recommended for the five daily prayers**, whether performed *ada.*' or *qada.*, and whether performed singly or as congregational (*jama'ah*).

- ✚ It is not valid to make *adhan* for the supererogatory prayers or the obligatory prayers other than the five daily ones; rather the caller calls out, “***al-salah***” **three times**.
- ✚ When the imam performs the **congregational prayer**, and some people come (after completing it), they are not required to recite *adhan* or *iqamah* -with aversion- as long as the first group has not separated.
