The subject of *Tasawwur* and *Tasdiq*

Tasdiq belongs to the relationship in a predicative sentence along with a judgment about whether it is true.

Tasawwur is related to one of the following four:

- A singular conception; such as a word or a particle
- Predicative ascription with doubt and without any assent; such as when someone says, "Mars is not alive" and you imagine the relation.
- Non-predicative sentences
- Incomplete compositions; such as: "If it were lion"
