Lesson 88

Derivative and Non-Derivative

(الحمل المواطة و الحمل الاشتقاق)

- The logicians say that laughing is property (خاصه) and walking is general accidental “عرض عام” to humans while one cannot say ‘human is laughing or walking’. While the universal get predicated on their subjects, what is the reason?

Answer: The predicate that is meant in the five universals (الكليات الخمسه) is only the predicate in ‘الحمل المواطة’.

- Derivative “الاشتقاق” and non-derivative “المواطة”

If the predicate cannot be predicated upon the subject without adding

‘ذو’ (can/has) as in ‘الانسان ذو صحك’, this predication is ‘الحمل الشتقاق’,

otherwise it is called “الحمل المواطة”, such as ‘الانسان ضاحك’.
