Lesson 37

The Recommended Ghusls

Five *ghusls* are related to place:

Ghusl for **entering the Haram** (the perimeters of God's House), ***al- Masjid al-Haram, Ka'bah, Medina and Masjid al- Nabi (S)***.

Four Issues:

- 1) The *ghusl* which is *mustahhab* for the act and place has to be performed in advance, while the *ghusl* which is *mustahhab* for time has to be performed after it sets in.
- 2) In case of there being several recommended *ghusls*, the *niyyah* of nearness (*qurbah*) is not enough, unless the person states the cause.

3, 4) One who looks at a crucified (intentionally and after three days), and a newborn baby are recommended to have a *ghusl*. Some say it is *wajib*, but *isthbab* is more preponderant.

Third Rukn: The Dust *Taharah*

Section One

Conditions in which *Tayammum* is Performed

- 1) **Non-availability of water:** In that case it should be sought, by shooting at the distance of *ghalwah* (bowshot) of two bows, in all the four directions, if the ground be *sahlah* (plain), and one bowshot if it be rugged (*haznah*).
