

Lesson 11 Safety of Quran from Distortion

Safety of Quran from Distortion:

The meaning of distortion (تَحْرِيف):

1. Misinterpretation of Quran, that is to misuse Quran and imply a false meaning to it. This type of distortion has taken place by oppressors and the like.

2. Replacement of some words

This distortion is rejected by Muslims.

3. Addition in Quran

Shia don't accept this type unanimously, and the Sunnis claim so, but some of their narrations claim addition.

4. Omission from Quran

The predominant idea is rejection of this type, but there are some narrations which claim it.
