

Al-Mantiq

Lesson 56

True Particular and Relative particular

الجزئى الحقيقى و الجزئى الإضافى

The Definition of “الجزئى الإضافى”

Every concept is a relative “جزئى” in respect to another concept which has a broader sphere and this type of “جزئى” is called “الجزئى الإضافى”; such as ‘Ali’ in respect to ‘human’ and ‘human’ in respect to ‘animal’ and that to ‘growing substance’.

In result we can say that the “الجزئى الإضافى” is ‘more specific from something else’ or ‘the concept which is considered in respect to another concept which has a wider scope’.
