- If the chain of the universals is made of four, “الجنس المتوسط” is only one, such as the chain of water: Substance= (الجنس العالی); Body=The highest species(النوع العالی) ; The middle (الجنس المتوسط); Flowing Liquid = The Proximate(النوع المتوسط، الجنس القريب); Water = The lowest species (نوع الانواع، سافل).
- If the chain of the universals is made of six, there are three “الجنس المتوسط”, such as the chain of the equilateral triangle.
