- The main type of definition is 'الرسم التام' for the purpose of definition is two:
  1. Picturing the definiendum appropriately and clearly.
  2. Distinguishing it completely from the others.And these two are not fulfilled except by 'الحد التام'.

- Many logicians believe that knowing the reality of things and their essentials is impossible or unlikely, and what has been said are only peculiar features implying the realities; therefore, our definitions are mostly رسوم which resemble حدود.

- They believe that one can use the 'الخاصة اللازمة البيئنة بالمعنى الاخص' or secondly 'الخاصة اللازمة البيئنة بالمعنى الاعم' to guide to the reality of the definiendum and be like a differentia.
- Defining things with non-obvious property "خاصة خفية" cannot be beneficial for all; only those who have a specialty in that very matter can understand.
