المبتدأ الوصفي

If the first and the second word match in duality or plurality, then the second (the noun) would be the 'مبتدا' (for if it was the 'فاعل', the 'صفة' must have been singular). Example: «أقائمان الزيدان؟»

However, if they both are singular, the second can be the 'فاعل' of the 'صفة' or it can be the delayed 'مبتدا'. Example: «أقائمت زيدا؟»

When the first and the second word match in duality or plurality, the 'فاعل' of the 'صفة' is not the second word, rather it is a hidden (مستتر) pronoun such as 'هما', 'كم', 'هم', 'أنتما'.
