بِسْمِ ٱللَّهِ ٱلرَّحْمَٰنِ ٱلرَّحِيمِ

Lesson 126
How to Acquire Definition (5)
(كسب التعريف)

Logical binary division

In this method, after the first two steps, one moves to the known genus and divides it with the binary division to negation and affirmation, i.e., affirmation by the essential or accidental peculiarity of the unknown and negation of the others that do not have it and this way leads to 'الرسم التامّ' or 'الحدّ التامّ'.
